

Accomplishments

Any Social Service Agency will tell you whenever you see the fruition of your work come forth through a client accomplishing a goal, it is fulfilling and makes all you do worth while. WellSpring is proud of its work especially during the month of April. We were able through advocacy and referrals to assist one of our clients in relocating after she found out her abuser would be released from prison. All the resources she needed were provided for her and her children to ease the burden of starting over again. This client was so grateful for the work we do that she was compelled to write us a heartfelt letter of thanks. She is not our only success story, but one of the most powerful ones. We can only continue to do this through funds, resources and services given by staff, volunteers and donors like you.

Client Appreciation Letter

Hi Ms Brim,

I would just like to re-iterate my gratefulness for all the help you and Ms. Nelson provided to me.

Due to the seriousness of my situation I know I became agitated and anxious at times during the time I spent trying to find the help I needed to become safe. I know without your help and diligence I could not have moved forward as I have. Yes it was stressful and uncomfortable at times, but I am thankful to God for instilling in me a Spirit of knowing I can do all things through Christ that strengthens me.

I would also like to say thanks to the lovely lady at the front desk for her patience and understanding while taking my messages..I understand that first impressions can be so very important and the nice lady that answered your phone was very understanding and patient while taking all my messages (as if she worked for me personally).

In the future I hope I don't have to contact you again :) but if I do, It's nice to know that you are there for me.

signed EVER SO GRATEFUL

WellSpring, Truly a Center of Hope!
